OUTER

KIGANISM

[KIGA-TEX] is the gigantic textile engineering made by KIGAN.

This is the new product that blocks raindrops from the outside while allowing the discharge of sweats or steam inside.

The 2/10,000mm hole prevents rain drops greater than 1 mm but allows 4/10,000,000mm of steam to pass.

We applied minimal chemical and artificial process to the "Kiganism" jacket by using careful selection of materials; the best quality in existence with breathable waterproof quality.
